DETAILED ACTION

1. This action is responsive to the Applicant's RCE/Amendment filed on August 16, 2005.
2. Claims 3 – 8, and 10 – 26 are allowed, and claims 1, 2, 9, and 27 have been cancelled.

Allowable Subject Matter

3. Prior art of record, taken either singly and/or in combination, does not teach or disclose a method as recited in independent claims 3 and 18, or an apparatus as recited in claim 26 with the following features:

Dynamically optimizing a computer program generating annotation information about the computer program where *the annotation information is derived from information held by a compiler about references to individual memory locations.*

The closest prior art is Buzbee, U.S. Patent 6,219,832, which generates and stores annotation information enabling dynamic optimization of a computer program during execution, but it does not disclose annotation information held by a compiler derived from references to individual memory locations.

Thus all remaining dependent claims 4 – 8, 10 – 17; and 19 – 25 are also allowed.

Art Unit: 2193

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
